

Aboleth

The Aboleth is a terrifying aberration with the ability to probe your mind and read your deepest desires telepathically. Can you show that you have an equally strong mind and beat this entity at its own game?

Send 1-2 representatives from your team to take part in a virtual event in the Discord channel “Aboleth” starting at 12.20pm. There will be no rerun of this event.

There is no clear advantage/disadvantage in choosing to send either 1 or 2 representatives, and there are no particular skills needed. The event should take around 20-30 minutes to complete.

Representatives must have individual access to Discord, a webcam and a web browser. They will have to participate in a video chat and work collaboratively together with representatives from other teams.
