

## The Joker (solution)

by Sim Hong Jhun

The easiest way to solve this puzzle is to first recognize the format and font (Impact) in most of these images as that of internet memes. The text in these images are “reinterpretations” of some more popular memes. After identifying the memes, solvers might realise that the names of the memes (perhaps using <https://knowyourmeme.com/> as a reference) do not fit the blanks below the images. However, solvers might realise that all of these memes are from scenes in movies or TV shows.

Given order	Meme	Source (in alphabetical order)
1	Well That Escalated Quickly	Anchorman: The Legend of Ron Burgundy
2	Why Can't You Just Be Normal	The Babadook
3	Am I the Only One Around Here	The Big Lebowski
4	Is This a Pigeon?	The Brave Fighter of Sun Fighbird
5	Brace Yourselves, Winter is Coming	Game of Thrones
6	Things Are Getting Pretty Serious	Napoleon Dynamite
7	They're The Same Picture	The Office
8	I'm Something of a Scientist Myself	Spider-Man
9	You Don't Say?	Vampire's Kiss
10	You Guys Are Getting Paid?	We're The Millers

After filling in the blanks with the meme sources, extracting using the blanks will yield two phrases, one using the “A” blanks and the other using the “B” blanks: BLANK MEAN BABY and LOOK AT THIS IM BLANK. These refer to two other memes, and replacing BLANK with the right words will give the answer **CRAZY RICH**.
