You find some commentaries of the Aurochs' team led by Tidus, trying out his skills in some other games.

“The crowd is excited as the second half of game number 6 gets underway. Tidus and the other four guys have been looking good so far, can they keep up their performance? It looks like Datto has the ball now, he passes it up front but it goes out of the side. Kick-in for the Goers. Tidus steals the ball masterfully, and ooh, a Nap pass across the semicircular penalty area to Wakka.. but he gets tackled by Bickson! Nasty foul there. It's the sixth foul, so the Aurochs get a direct kick. Looks like Tidus is going to take it, the Goers have already formed a wall.. Tidus takes the shot, oh, a beautiful goal!”

“It's the second set of game number 11. The Aurochs fought hard to win the first set 21-19. Wakka and Datto are by the net and Tidus is in the circle, ready to go. Nice service there, Wakka with an underhand toss straight onto Tidus' right foot. Bickson kicks it back, and it hits Datto's elbow. One point to the Goers. The Aurochs serve again, and the Goers send a nasty return, and Letty manages to keep it in with the tip of his foot, Wakka heads the ball and ooh, Tidus does a Venom Shot with his left foot and scores a point! The Aurochs are on the board!”

“The music is wild and the crowd are feeling the beat here in game number 9 of the season. The Goers have service and Tidus, Wakka, Datto and Letty look ready to go. Tidus is already starting to bounce up and down on the trampoline as the ball comes over, and ooh, I can see him using Anti-Venom 2 in preparation. Datto barely gets a hand on the ball, hitting it over to Wakka who backhands it over to Letty. Letty takes the ball on his chest, then kicks it back to Datto who sets it up for Tidus who flips over and does an overhead kick, smashing the ball right into the Goers' trampoline – Beautiful shot! 5 points to the Aurochs!”

“It's game number 9 of the season and Tidus and the other 6 guys are lined up at their goal line, ready to go. The whistle blows and the players are off! Wakka swims to the ball first and flips it back to Datto, who passes it to Wakka. Wakka picks out Tidus across the pool and flings it over to him. Tidus has to be quick, their 30 seconds to shoot is almost running out, but ooh, Tidus unleashes a Volley Shot straight at the goal and scores! That was such a powerful throw that it even knocked off their goalie's red cap. Excellent shot!”

“Game number 8 of the season is getting pretty exciting. Bickson is rushing forward with the ball for the attack, but Wakka in the black headband hits him with another ball. Bickson's got to drop his ball and run back to the hoops now. Datto picks it up and throws it ahead to Tidus, who, ooh, is using Grip Gloves to hold on to it better. Tidus narrowly avoids another ball thrown by a Goer, almost dropping his stick there! He runs behind the hoops and tries a shot – 10 points to the Aurochs! Fantastic shot!”

“It's game 10 of the season and we're in the final period. The Aurochs are trailing slightly after the first two periods but it looks like Tidus and the other 6 have a plan to fight back. The Goers are on the attack now, and ooh, Tidus is using Anti-Drain to get ready in defence. Bickson leaps up and hurls the ball into the net. Datto barely catches the rebound! He throws it to Wakka, who takes two steps and throws it to the opposite side of the arena to Letty! Letty leaps across the semicircle, but looks like its a fake and he lobs it to Tidus who smashes it into the net. The rebound hits the play area and its a point to the Aurochs! Great play!”

“Game number 13 of the season is shaping up to be an interesting one. Tidus and the other 9 guys are looking a little tired going into the fourth and final period but spirits are still high. Looks like it's going to be Datto and Bickson facing off – Bickson gets the ball first, passing it back to Graav who's trying to go down the left flank. Tidus rushes up with his stick and tackles him, knocking the ball out of Graav's net and picking it up with his own. Ooh, Tidus flings it to Wakka with a Spin Ball, who deflects it with his long stick straight into the goal! That went right into the center of the pyramid. Magnificent goal!”

“It's game 8 of the season and Tidus and the 3 guys are joined by Vilucha and the other 3 women this game. Vilucha has the ball in the opponent's half, but looks like she's closely marked by Balgerda. She turns and manages to pass to Wakka. Wakka is turning about on one foot and looking to pick out Tidus who's being marked by Bickson but Graav isn't making it easy for her. He gets off the pass to Tidus, and ooh, Tidus tries a Wither Shot from behind the goal – straight through the bright yellow hoop! That was an absolutely classic goal!”
