# ISOLATED ISLANDS

The Water Guardian tries to intimidate the party by swimming a loop amongst his archipelago, leaving massive waves in his wake.

Note that the Water Guardian does not swim across islands, and unlike regular Islands in the Stream, there are unclued islands with no numbers shown here.

Islands in the Stream

						4

						1			
	2								
					5				
							5		
									2
		5						2	
		3							

Slitherlink

Note that the Water Guardian floods any island squares that he swims alongside against. Use all these grids to help the party figure out and learn his magic.
